

**The SUDA team invites
you to participate in an
open team meeting!**

Hosted by IMPACT at
LASP

Boulder, Colorado, USA

Thursday, December 10th and Friday, December 11th, 2015

Includes presentations and discussions of current SUDA instrument design and testing, simulations, and updates on the Europa mission. This meeting will give participants an opportunity to tour the dust accelerator and ice target facilities.

Participants are encouraged to present on compositional mapping, the physics of dust as it relates to the Europa mission, and dust analogs.

The Europa PSG meeting will precede this meeting December 7th and 8th in Los Angeles, and American Geophysical Union's Fall Meeting will take place the following week, December 14th-18th in San Francisco, California, USA, and will not conflict with our events.

Please respond to michelle.villeneuve@lasp.colorado.edu, with subject 'SUDA event' by November 10th, with a title and brief abstract, if you are interested in participating.
